

DETAILED ACTION

Allowable Subject Matter

Claims 21-49 are allowed.

The following is an examiner's statement of reasons for allowance:

Claim 21, 38 and 48 are allowable over the reference of record because none of these references discloses or can be combined to yield the claimed invention of a capacitance structure including the second capacitance surface part having at least one electrically conductive region between the first metallization plane and the second metallization plane in the insulating layer and is operatively connected to one of the first metallization plane and the second metallization plane where the second capacitance part is in the form of a homogeneous cohesive elevation, wherein the elevation comprises a top wall and side walls, wherein the top wall is oriented perpendicular to the side walls and wherein the side walls and the top wall are in direct contact with the insulating layer. Claim 49 is allowable over the reference of record because none of these references discloses or can be combined to yield the claimed invention of a capacitance structure wherein the insulating layer is in between the top wall and the one of the first metallization plane and the second metallization plane that is not connected to the electrically conductive region of the second capacitance part. Claims 22-37 and 39-47 contain allowable subject matter by virtue of their dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tsz K. Chiu whose telephone number is 571-272-8656. The examiner can normally be reached on 0800 to 1700.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Zandra V. Smith can be reached on 571-272-2429. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
